INTER-OFFICE

To **M. J. Bonaventure**

FROM **J. C. Parks**

SUBJECT **T-0530 DECONTAMINATION**

ADDRESS

ADDRESS

DATE **July 12, 1985**

On July 12, we received a verbal notification from Mr. Mike Miille of California Analytical Labs, that the sample they analyzed had no detectable concentration of dioxin. This sample was sent to them from T-0530 which had been treated as per our plan, which was submitted to the EPA (sand filtration followed by carbon bed adsorption with agitation proved by bubbling nitrogen through the tank). Mr. Miille will follow the verbal notification with a letter stating the analysis.

We are proceeding to discharge the contents of the tank, as we are permitted to do.

Thanks,

A handwritten signature in cursive script that reads "John C. Parks".
